

The 'SM' range of surface linear and modular luminaires are designed to utilise the advantages of T5 lamp technology making it ideally suited for the modern interior.

The canopy is constructed from zinc coated sheet steel with perforated sides and finished RAL9010 20% gloss, creating a sleek and pleasing profile. Alternative paint finishes available on request.

Fused high frequency control gear is offered as standard with analogue or digital dimmable control gear optional. High output T5 lamp control gear is also available.

Four louvre attachments are available as standard including a low iridescent specular (Cat.2 200) and semi specular (Cat.2 500) Miro wedge louvre to match lamp configuration and retained by positive locating leaf springs. For lower specification areas a one piece polycarbonate Tp (a) dish controller is available.
